

## JOB DESCRIPTION: STRATEGY ANALYST

### POSITION SUMMARY

Hexagon Energy, a renewable energy project development company specializing in solar, wind, wave, biomass, and storage projects, is seeking a Strategy Analyst to support its renewable energy development efforts. The Strategy Analyst will be responsible for researching, summarizing, and making recommendations regarding market size, legislation, regulations, and applicable tariff structures.

Candidates must demonstrate a keen interest in and knowledge of the renewable energy industry. The ideal candidate's career history should demonstrate the ability to efficiently and effectively balance multiple projects in a deadline driven, team-oriented environment. Attention to detail (accuracy and thoroughness) is a must.

Ideal candidates will have 1-2 years of energy policy analysis or equivalent industry experience.

### KEY RESPONSIBILITIES

- Research and report on utility solar energy procurement programs
- Analyze and report on market conditions and new markets
- Research and track pertinent legislation and regulation in key markets
- Identify potential off-take strategies and conduct initial utility outreach
- Prepare proposals for utility outreach, including unsolicited bids and RFP responses
- Assist in financial modeling efforts
- Support the project development team in its development efforts

### SKILLS

- Strong research and writing skills
- Broad technical understanding of industry and major industry drivers
- Communication skills—ability to distill technical information to layperson
- Ability to balance multiple projects and prioritize needs with timely responses
- Analytical capabilities
- Creative problem solving

## EDUCATION & ADDITIONAL CERTIFICATIONS

Applicants with a Bachelor's Degree in Economics, Public Policy, or other related majors which require extensive research and writing.

## LOCATION

This position is based at Hexagon's headquarters in Charlottesville, Virginia.
